PERSONAL INFORMATION

Entry-level Software Developer, transitioning from the marketing and content creation industry. Understands the the development process from initial product idea to its market launch and promotion.

Just attained the Full Stack Developer qualification from the Code Institute, Ireland. Has a solid foundation in full-stack framework Django, database technologies, jQuery, and AWS. Completed several study projects using these skills, demonstrating the ability to apply them to real-world tasks. Looks for an opportunity to contribute to a software development team in an entry-level position.

KEY SKILLS

- **Languages:** HTML, CSS, Python, JavaScript
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Libraries:** jQuery, Kaboom.js
